

6.2 Citat-udlægning – practicing the PEE(L)-model

First pair: Write two points about your analytical focus under the column 'point'. Then send your suggestions to a neighbouring pair.

Second pair: Find two quotes from the text that may prove the points you have just received. Write your suggestions under the column 'examples'.

Third pair: Study the two points and the suggested examples (quotes) for these points. Write an explanation on how these quotes may be seen as proof of the points. Write your explanation in the column 'explanation'.
